

Methods of test for petroleum and its products — BS 2000-313:2001 Determination of air release of lubricating and hydraulic oils

(Identical with IP 313:2001)

ICS 75.100; 75.120

Confirmed January 2010

National foreword

This British Standard reproduces verbatim IP 313:2001 and implements it as the UK national standard. It supersedes BS 2000-313:1982 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/13, Petroleum testing and terminology, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

The Institute of Petroleum publishes and sells all Parts of BS 2000, and all BS EN petroleum test methods that would be Part of BS 2000, both in its annual publication “Standard methods for analysis and testing of petroleum and related products and British Standard 2000 Parts” and individually.
