
Methods for
**The determination
of the linear density
of textile fibres:
gravimetric methods**

This British Standard, having been approved by the Textile Divisional Council, was published under the authority of the Executive Board on 19 October, 1973.

© British Standards Institution, 1973.

First published September, 1953

First revision March, 1961

Second revision October, 1973

ISBN: 0 580 07667 9

Copyright

Users of British Standards are reminded that copyright subsists in all BSI publications. No part of this publication may be reproduced in any form without the prior permission in writing of BSI. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols and size, type or grade designations. Enquiries should be addressed to the BSI Secretariat.

Contract requirements

Attention is drawn to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

Revision of British Standards

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. **It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.** Full information on all BSI publications, numbering over 6000, will be found in the *British Standards Yearbook*. This information is supplemented by details published each month in *BSI News* of new publications, revisions and amendments.

BSI News is available to Subscribing Members of the Institution. All other publications may be purchased direct from Sales Department. Enquiries concerning subscribing membership, which has considerable advantages, will be welcomed, and should be made to Subscriptions Department. Both departments are located at:

101 Pentonville Road, London N1 9ND (Telephone 01-837 8801 ; Telex 23218).

The following BSI references relate to the work on this standard:

Committee reference T/16 Draft for comment 72/70434.

Co-operating organizations

The Textile Divisional Council, under whose supervision this British Standard was prepared, consists of representatives from the following Government department and scientific and industrial organizations:

British Railways Board
Consumers' Association
Consumer Standards Advisory Committee of BSI
Cotton Industry Standards Committee
Jute Industry Standards Committee
Linen Industry Standards Committee
London Transport Executive
Man-made Fibres Industry Standards Committee

Ministry of Defence
Ropes and Cordage Industry Standards Committee
Silk Industry Standards Committee
Society of Dyers and Colourists
*Textile Institute
Textile Machinery Industry Standards Committee
Trades Union Congress
Wool Industry Standards Committee

The organization marked with an asterisk in the above list was represented on the Standing Joint Committee for Textile Test Methods, the members of which were appointed by the Textile Institute and the Textile Divisional Council and which was entrusted with supervising the preparation of this British Standard; they were drawn from:

Association of Jute Spinners and Manufacturers
Cotton Silk and Man-made Fibres Research Association

Manchester Chamber of Commerce Testing House
University of Leeds
Wira
