

Implants for osteosynthesis —

Part 5: Bone screws and auxiliary equipment —

Section 5.6 Specification for the mechanical requirements and test methods for screws having asymmetrical thread and spherical undersurface

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Health Care Standards Policy Committee to Technical Committee HCC/22, upon which the following bodies were represented:

- British Institute of Surgical Technologists
- British Investment Casting Trade Association
- British Medical Association
- British Orthopaedic Association
- British Steel Industry
- British Surgical Trades Association
- Department of Health
- Institute of Sterile Services Management
- Medical Sterile Products Association
- National Association of Theatre Nurses
- Royal College of Surgeons of England
- Royal Veterinary College
- Scottish Office

The following body was also represented in the drafting of the standard, through subcommittees and panels:

- Department of Trade and Industry (National Engineering Laboratory)

This British Standard, having been prepared under the direction of the Health Care Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 30 August 1991
