

Steel pipes and tubes for pressure purposes: carbon and carbon manganese steel with specified elevated temperature properties —

**Part 1: Specification for seamless and
electric resistance welded including
induction welded tubes**

UDC 621.643.2-986:[669.14.018.4-462+669.15'74.018.4-462]:621.774.2/.3

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Iron and Steel Standards Committee (ISM/-) to Technical Committee ISM/73, upon which the following bodies were represented:

- Associated Offices Technical Committee
- BEAMA Ltd. (Power Generation Association)
- British Compressed Air Society
- British Gas plc
- British Steel Industry
- Electricity Supply Industry in England and Wales
- Engineering Equipment and Materials Users' Association
- High Pressure Pipework Consultative Committee
- Lloyds Register of Shipping
- Process Plant Association
- Seamless Steel Tube Association
- Water Tube Boilermakers' Association
- Welding Institute
- Coopted members

The following bodies were also represented in the drafting of the standard, through sub-committees and panels:

- British Fluid Power Association
- British Forging Industry Association
- British industrial Truck Association
- British Welded Steel Tube Association
- Confederation of British Industry
- Energy Industries Council
- Coopted member

This British Standard, having been prepared under the direction of the Iron and Steel Standards Committee, was published under the authority of the Board of BSI and comes into effect on 23 December 1987
