

BRITISH STANDARD

BS 3603 : 1991

Specification for

Carbon and alloy steel pipes and tubes with specified low temperature properties for pressure purposes

Tubes et tuyaux pour utilisations sous pression
en acier au carbone et en acier allié à
propriétés spécifiées à basse température —
Spécifications

Druckrohre aus legiertem oder unlegiertem
Stahl für den Einsatz bei niedrigen
Temperaturen

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Iron and Steel Standards Policy Committee (ISM/-) to Technical Committee ISM/73, upon which the following bodies were represented:

Associated Offices Technical Committee
BEAMA Ltd. (Power Generation Association)
British Compressed Air Society
British Gas plc
British Shipbuilders
British Steel Industry
Electricity Supply Industry in England and Wales
Engineering Equipment and Materials Users' Association
High Pressure Pipework Consultative Committee
Lloyd's Register of Shipping
Process Plant Association
Seamless Steel Tube Association
Water-tube Boilermakers' Association
Welding Institute
Coopted members

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

British Fluid Power Association
British Forging Industry Association
British Industrial Truck Association
British Welded Steel Tube Association
Confederation of British Industry
Energy Industries Council
Coopted member

This British Standard, having been prepared under the direction of the Iron and Steel Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 28 February 1991
