

Steel pipes and tubes for pressure purposes: ferritic alloy steel with specified elevated temperature properties —

**Part 1: Specification for seamless and
electric resistance welded tubes**

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Iron and Steel standards Policy Committee (ISM/-) to Technical Committee ISM/73, upon which the following bodies were represented:

- Associated Offices Technical Committee
- BEAMA Ltd. (Power Generation Association)
- British Compressed Air Society
- British Gas plc
- British Steel Industry
- Electricity Supply Industry in England and Wales
- Engineering Equipment and Materials Users' Association
- High Integrity Pipework Group, Power Plant Contractors' Association
- Lloyds Register of Shipping
- Process Plant Association
- Seamless Steel Tube Association
- Water Tube Boiler Group, Power Plant Contractors' Association
- Welding Institute
- Coopted members

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Fluid Power Association
- British Forging Industry Association
- British Industrial Truck Association
- British Welded Steel Tube Association
- Confederation of British Industry
- Energy Industries Council
- Coopted member

This British Standard, having been prepared under the direction of the Iron and Steel Standards Policy Committee, was published under the authority of the Executive Board and comes into effect on 31 May 1990
