

Steel pipes and tubes for pressure purposes: ferritic alloy steel with specified elevated temperature properties —

Part 2: Specification for longitudinally
arc welded tubes

Confirmed December 2011

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Iron and Steel Standards Policy Committee (ISM/-) to Technical Committee ISM/73, upon which the following bodies were represented:

- Associated Offices Technical Committee
- BEAMA Ltd.
- British Compressed Air Society
- British Forging Industry Association
- British Gas plc
- British Steel Industry
- Electricity Supply Industry in United Kingdom
- Engineering Equipment and Materials Users' Association
- Lloyd's Register of Shipping
- Power Generation Contractors' Association (BEAMA Ltd.)
- Process Plant Association
- The Welding Institute
- Coopted members

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Fluid Power Association
- British Welded Steel Tube Association
- Confederation of British Industry
- Energy Industries Council
- Stainless Steel Fabricators Association of Great Britain

This British Standard, having been prepared under the direction of the Iron and Steel Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 30 September 1991
