

BRITISH STANDARD 4174 : 1972

UDC 621.882.082.8

SPECIFICATION FOR
SELF-TAPPING SCREWS AND
METALLIC DRIVE SCREWS

BRITISH STANDARDS INSTITUTION

Gr 9

050920015235

AMD 8549

Amendment No. 1
published and effective from 15 May 1995
to BS 4174 : 1972

**Self tapping screws and metallic
drive screws**

Obsolescence

Insert the following paragraph immediately before clause 1.

'Obsolescent (by Amendment No. 1).

The need for screws covered by this British Standard has been reviewed and it has been decided that in the interests of rationalization they should be regarded as obsolescent. Their use for new designs is not therefore recommended. The standard will be withdrawn in due course.

Even though this standard has largely been superseded by a series of BS EN standards, of which BS EN ISO 1479 : 1994 and BS EN ISO 7049 : 1994 are typical examples, it has not been withdrawn but declared obsolescent as it is recognized that it should remain available for the servicing of existing designs which are expected to have a long working life.'
