

Cylindrical gears — ISO system of accuracy —

**Part 4: Definitions and allowable values
of deviations relevant to corresponding
flanks of gear teeth**

ICS 21.200

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee MCE/5, Gears, upon which the following bodies were represented:

- British Engineers Cutting Tools Association
- British Gear Association
- British Horological Federation
- British Horological Institute
- Engineering Equipment and Materials Users' Association
- Federation of Manufacturers of Construction Equipment and Cranes
- Gauge and Tool Makers' Association
- Institution of Mechanical Engineers
- Lloyds Register of Shipping
- London Underground Ltd.
- Ministry of Defence
- Power Generation Contractors Association (PGCA)(BEAMA Ltd.)

The following body was also represented in the drafting of the standard, through subcommittees and panels:

- Cranfield University

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 June 1996
