

Structural use of timber —

Part 6: Code of practice for timber frame walls —

Section 6.1 Dwellings not exceeding seven storeys

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/525, Building and Civil Engineering Structures, to Subcommittee B/525/5, Structural use of timber, upon which the following bodies were represented:

- British Woodworking Federation
- Department of the Environment (Building Research Establishment)
- Department of the Environment (Property and Buildings Directorate)
- Health and Safety Executive
- Institution of Civil Engineers
- Institution of Structural Engineers
- National House-Building Council
- Timber Research and Development Association
- Timber Trade Association
- Co-opted members

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 March 1996
