

Specification for

Evaluating particulate contamination of hydraulic fluids —

Part 1: Qualifying and controlling of cleaning methods for sample containers —

[ISO title: Hydraulic fluid power — Fluid sample containers — Qualifying and controlling cleaning methods]

UDC 665.767:621.22.011:620.115.22

Cooperating organizations

The Mechanical Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

Associated Offices Technical Committee	Department of Transport
Association of Consulting Engineers	Electricity Supply Industry in
Association of Hydraulic Equipment	England and Wales*
Manufacturers*	Engineering Equipment Users' Association*
Association of Mining Electrical and	Federation of Manufacturers of Construction
Mechanical Engineers	Equipment and Cranes*
British Compressed Air Society*	Health and Safety Executive*
British Electrical and Allied Manufacturers'	Institution of Gas Engineers
Association (BEAMA)	Institution of Mechanical Engineers*
British Gas Corporation	Institution of Plant Engineers
British Gear Manufacturers' Association	Institution of Production Engineers
British Internal Combustion Engine	London Transport Executive
Manufacturers' Association	Machine Tool Trades Association*
British Pump Manufacturers' Association	Ministry of Defence*
British Steel Corporation	National Coal Board*
Chartered Institution of Building Services	Process Plant Association
Crown Agents for Oversea Governments	Railway Industry Association of
and Administrations	Great Britain
Department of the Environment	Telecommunication Engineering and
Department of Industry,	Manufacturing Association (TEMA)
Mechanical Engineering	The Society of Motor Manufacturers
Department of Industry, National	and Traders Limited*
Engineering Laboratory*	Water-tube Boilermakers' Association
Department of Trade (Marine Division)	

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:

Ball and Roller Bearing Manufacturers'	Fire Offices Committee
Association	Hydraulic Association
British Hydromechanics Research	Institute of Petroleum
Association	Post Office
British Railways Board	Society of British Aerospace Companies
British Rubber Manufacturers' Association	Limited
Council of Underground Machinery	The Industrial Unit of Tribology
Manufacturers	

This British Standard, having been prepared under the direction of the Mechanical Engineering Standards Committee, was published under the authority of the Executive Board on 31 January 1978
