

Evaluating particulate contamination of hydraulic fluids —

Part 4: Method of defining levels of contamination (solid contaminant code) —

[ISO title: Hydraulic fluid power — Fluids — Method for coding level of contamination by solid particles]

UDC 665.767:621.22.011:620.168.2

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Machinery and Components Standards Committee (MCE/-) to Technical Committee MCE/18, upon which the following bodies were represented:

- Association of British Mining Equipment Companies
- British Compressed Air Society
- British Fluid Power Association
- British Hydromechanics Research Association
- British Steel Corporation
- British Telecommunications plc
- Department of Trade and Industry (National Engineering Laboratory)
- Electricity Supply Industry in England and Wales
- Federation of Manufacturers of Construction Equipment and Cranes
- Institution of Mechanical Engineers
- Machine Tool Industry Research Association
- Ministry of Defence

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Bath University Library
- British Railways Board
- Institution of Production Engineers
- Society of Motor Manufacturers and Traders Ltd.

This British Standard, having been prepared under the direction of the Machinery and Components Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 October 1988
