

Methods of analysis of

Wood preservatives and treated timber —

**Part 5: Determination of zinc
naphthenate in preservative solutions
and treated timber**

NOTE It is essential that this Part is read in conjunction with Part 1 “General considerations and sampling and preparation of materials for analysis.”

UDC 674.048:620.1

Confirmed November 2008

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Wood Preservation Standards Committee (WPC/-) to Technical Committee WPC/11, upon which the following bodies were represented:

- Association of Consulting Scientists
- British Drier Manufacturers' Association
- British Wood Preserving Association
- Department of the Environment (Building Research Establishment, Princes Risborough Laboratory)
- Ministry of Defence

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages
