

Methods of analysis of

Wood preservatives and treated timber —

**Part 7: Quantitative analysis of
preservatives containing
bis(tri-*n*-butyltin)oxide: determination
of total tin**

NOTE It is essential that this Part is read in conjunction with Part 1 “Guide to sampling and preparation of wood preservatives and treated timber”.

Confirmed November 2008

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Wood Preservation Standards Policy Committee (WPC/-) to Technical Committee WPC/11, upon which the following bodies were represented:

- Association of Consulting Scientists
- British Drier Manufacturers' Association
- British Wood Preserving and Damp-proofing Association
- Department of the Environment (Building Research Establishment)
- Ministry of Defence

This British Standard, having been prepared under the direction of the Wood Preservation Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 January 1991
