

Sampling procedures for inspection by attributes —

Part 4: System of sequential sampling plans indexed by acceptance quality limit (AQL) for lot-by-lot inspection

ICS 03.120.30

National foreword

This British Standard reproduces verbatim ISO 2859-5:2005 and implements it as the UK national standard. It supersedes BS 6001-4:1994 which is withdrawn.

Readers should note that the 1994 edition of BS 6001-4 was identical to ISO 8422:1991. However, the responsible ISO committee have removed the acceptance procedures contained in Annex A of ISO 8422:1991 and published them separately as ISO 2859-5:2004. The revised edition of ISO 8422 will be published separately by BSI as BS ISO 8422.

The UK participation in its preparation was entrusted to Technical Committee SS/5, Acceptance sampling systems, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
