

Sampling procedures for inspection by variables —

**Part 4: Sequential sampling plans
indexed by acceptance quality limit
(AQL) for inspection by variables
(known standard deviation)**

ICS 03.120.30

National foreword

This British Standard reproduces verbatim ISO 3951-5:2006 and implements it as the UK national standard. Together with BS ISO 8423 (when published) it supersedes BS 6002-4.1:1994.

Readers should note that the 1994 edition of BS 6002-4.1 was identical to ISO 8423:1991. However, the acceptance procedures contained in Annex A of ISO 8423:1991 are now published as ISO 3951-5:2006. The revised edition of ISO 8423 will be published separately by BSI as BS ISO 8423.

The UK participation in its preparation was entrusted to Technical Committee SS/5, Acceptance sampling schemes, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the ISO title page, pages ii to vi, pages 1 to 36, an inside back cover and a back cover.
