

Methods of sampling and test for

Carbonaceous materials used in aluminium manufacture —

Part 2: Electrode coke —

Section 2.11 Determination of volatile
matter content

NOTE It is recommended that this Section be read in conjunction with the general information in BS 6043-2.0, published separately.

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CII/24, Raw materials for the aluminium industry, upon which the following bodies were represented:

- Aluminium Federation
- British Ceramic Research Ltd.
- Chemical Industries Association
- Institute of Petroleum
- Refractories Association of Great Britain

This British Standard, having been prepared under the direction of the Materials and Sector Board, was published under the authority of the Standards Board and comes into effect on 15 September 1995
