

Testing of resin and polymer/cement compositions for use in construction —

**Part 3: Methods for measurement of
modulus of elasticity in flexure and
flexural strength**

Confirmed December 2011

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Cement, Gypsum, Aggregates and Quarry Products Standards Policy Committee (CAB/-) to Technical Committee CAB/17, upon which the following bodies were represented:

- British Adhesives and Sealants Association
- British Cement Association
- British Railways Board
- Building Employers' Confederation
- Cement Admixtures Association
- Concrete Repair Association
- Concrete Society
- County Surveyors' Society
- Department of the Environment (Building Research Establishment)
- Department of Transport
- Department of Transport (Transport and Road Research Laboratory)
- Federation of Civil Engineering Contractors
- FeRFA
- Institution of Highways and Transportation
- Institution of Structural Engineers
- Plastics and Rubber Institute
- Sprayed Concrete Association

This British Standard, having been prepared under the direction of the Cement, Gypsum, Aggregates and Quarry Products Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1990
