

Electric surface heating —

Part 2: Guide to the design of electric surface heating systems

UDC 621.365.3/.4:669-408

Cooperating organizations

The Power Electrical Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

- Associated Offices Technical Committee
- British Electrical and Allied Manufacturers' Association (BEAMA)
- British Railways Board
- British Steel Corporation*
- Department of Energy, Electricity
- Department of Industry
- Electrical Contractors' Association
- Electrical Contractors' Association of Scotland
- Electricity Supply Industry in England and Wales*
- Energy Industries Council*
- Engineering Equipment and Materials Users' Association*
- ERA Technology Ltd.
- Institute of Purchasing and Supply
- Institution of Electrical Engineers*
- Ministry of Defence*
- National Coal Board
- National Economic Development Office
- Trades Union Congress

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

- BCIRA
- British Gas Corporation
- British National Committee for Electroheat
- Committee for Electrical Equipment for use in Flammable Atmosphere (BEAMA)
- Glass Manufacturers' Federation
- Health and Safety Executive
- Induction and Dielectric Heating Manufacturers' Association
- Lighting Industry Federation Ltd.

This British Standard, having been prepared under the direction of the Power Electrical Engineering Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 March 1983
