

Analysis of surface active agents (raw materials) —

Part 1: General methods —

Section 1.1 Method for determination of mineral sulphate content

[ISO title: Surface active agents — Determination of mineral
sulfate content — Titrimetric method]

UDC 661.185.1:543.2-112

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Chemicals Standards Committee (CIC/-) to Technical Committee CIC/34 upon which the following bodies were represented:

- Chemical Industries Association
- Consumer Standards Advisory Committee of BSI
- Department of the Environment
- Department of Trade and Industry (Laboratory of the Government Chemist)
- Fabric Care Research Association
- London Regional Transport
- Ministry of Defence
- Royal Society of Chemistry
- Soap and Detergent Industry Association
- Society of Dyers and Colourists
- Society of Occupational Medicine
- Textile Institute

This British Standard, having been prepared under the direction of the Chemicals Standards Committee, was published under the authority of the Board of BSI and comes into effect on 27 February 1987
