

Specification for

Shock and vibration measurements: characteristics to be specified for seismic pick-ups

[ISO title: Shock and vibration measurements — Characteristics
to be specified for seismic pick-ups]

UDC 534.647.004.1:681.892.004.1

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Mechanical Engineering Standards Policy Committee (GME/-) to Technical Committee GME/21, upon which the following bodies were represented:

- British Maritime Technology
- British Steel Corporation
- Electricity Supply Industry in England and Wales
- Institute of Sound and Vibration Research
- Institution of Mechanical Engineers
- Lloyd’s Register of Shipping
- Ministry of Defence
- Motor Industry Research Association
- Power Generation Association (BEAMA Ltd.)
- Society of British Aerospace Companies Limited
- Society of Environmental Engineers

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Coal Corporation
- Electronic Components Industry Federation
- Health and Safety Executive

This British Standard, having been prepared under the direction of the General Mechanical Engineering Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 29 September 1989
