

Pavements constructed with clay, natural stone or concrete pavers —

Part 1: Guide for the structural design of heavy duty pavements constructed of clay pavers or precast concrete paving blocks

ICS 93.080.20

Confirmed July 2008

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/507, Paving units and kerbs, upon which the following bodies were represented:

- Brick Development Association
- British Cement Association
- British Ceramic Research Ltd.
- British Precast Concrete Federation Ltd.
- Cementitious Slag Makers' Association
- Country Surveyors' Society
- Department of the Environment, Transport and the Regions (Highways Agency)
- Institution of Civil Engineers
- Institution of Highways and Transportation
- Interlay, the Association of Block Paving Contractors
- Interpave, the Concrete Block Paving Association
- Landscape Institute
- Society of Chemical Industry
- Stone Federation

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Civil Engineering Test Equipment Manufacturers' Association
- Institution of Structural Engineers
- National Federation of Clay Industries Ltd.
- National Paving and Kerb Association

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee and comes into effect on 15 February 2001
