

Code of practice for application and testing of hot enamel external and/or internal coating of iron and steel pipes

ICS 23.040.10; 25.220.50

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/16, Protective coatings and linings of metal pipes and fittings, upon which the following bodies were represented:

- Adhesive Tape Manufacturers' Association
- British Coatings Federation Ltd.
- British Foundry Association
- British Gas PLC
- British Iron and Steel Producers' Association
- British Plastics Association
- Ductile Iron Pipe Committee
- Ductile Iron Producers' Association
- Galvanizers' Association
- Institute of Corrosion
- Institute of Materials
- Large Diameter Steel Tube Association
- Pipeline Protection Association
- Society of British Water Industries
- Society of Chemical Industry
- Water Services Association of England and Wales

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- London Chamber of Commerce Incorporated
- Low Temperature Coal Distillers' Association of Great Britain Ltd.
- Pipeline Industries Guild

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 November 1996
