

Guide to

**The interpretation of
petrographical
examinations for
alkali-silica reactivity**

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/502, Aggregates, to Subcommittee B/502/2, Aggregates for concrete including those for use in roads and other pavements, upon which the following bodies were represented:

- Association of Consulting Engineers
- British Geological Survey
- British Precast Concrete Federation Ltd.
- County Surveyors' Society
- Department of the Environment, Transport and the Regions
- Department of the Environment, Transport and the Regions (Building Research Establishment)
- Department of the Environment, Transport and the Regions (Highways Agency)
- Quarry Products Association

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee and comes into effect on 15 July 1999
