

Testing aggregates —

Part 123: Method for determination of alkali-silica reactivity — Concrete prism method

ICS 91.100.15

Confirmed November 2011

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/502, Aggregates, to Subcommittee B/502/6, Test methods, upon which the following bodies were represented:

- British Civil Engineering Test Equipment Manufacturers Association
- British Geological Survey
- County Surveyors' Society
- Department of the Environment, Transport and the Regions — Represented by the Building Research Establishment
- Department of the Environment, Transport and the Regions — Highways Agency
- Quarry Products Association
- UK Steel Association
- United Kingdom Accreditation Service

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee and comes into effect on 15 June 1999
