

CONFIRMED
SEPTEMBER 1990

Specification for

Rear marking plates for vehicles

Confirmed
February 2011

Foreword

This British Standard has been prepared under the authority of the Automobile Industry Standards Committee of BSI at the request of the Ministry of Transport.

Its purpose is to provide a specification for rear marking plates for vehicles to be used in accordance with the appropriate Regulation in order to give following vehicles adequate warning, both by day and by night, of particular types or lengths of vehicles which might constitute a hazard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Amendments issued since publication

Amd. No.	Date	Comments

This British Standard, having been approved by the Automobile Industry Standards Committee, was published under the authority of the Executive Board of the Institution on 30 April 1970
