

Metallic materials — Brinell hardness test —

Part 3: Calibration of standardized blocks to be used for Brinell hardness testing machines

The European Standard EN 10003-3:1994 has the status of a
British Standard

ICS 77.040.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/NFE/4, Mechanical testing of metals, upon which the following bodies were represented:

- AEA Technology
- Aluminium Federation
- British Non-Ferrous Metals Federation
- British Railways Board
- British Steel Industry
- Copper Development Association
- Department of Trade and Industry (National Physical Laboratory)
- Department of Trade and Industry (National Measurement Accreditation Service)
- ERA Technology Ltd.
- Electricity Association
- GAMBICA (BEAMA Ltd.)
- Institute of Materials
- Light Metal Founders' Association
- Ministry of Defence
- Society of British Aerospace Companies Limited
- University College London
- Welding Institute

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Department of Trade and Industry (National Engineering Laboratory)
- Society of Motor Manufacturers and Traders Limited

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1995
