

BSI Standards Publication

Mobile access and working towers made of prefabricated elements

Part 1: Materials, dimensions, design loads, safety and performance requirements

National foreword

This British Standard is the UK implementation of EN 1004-1:2020. It supersedes BS EN 1004:2004, which will be withdrawn on 30 November 2021.

The UK participation in its preparation was entrusted to Technical Committee B/514/24, Access towers.

A list of organizations represented on this committee can be obtained on request to its committee manager.

The UK committee recommends that the use of liquid or granular materials used as ballast in accordance with Subclause 7.7.2 should be considered carefully, risk assessed and managed by a competent person.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
