

Advanced technical ceramic — Ceramic composites — Methods of test for reinforcements —

Part 6: Determination of tensile properties of filaments at high temperature

The European Standard EN 1007-6:2007 has the status of a
British Standard

ICS 81.060.30

National foreword

This British Standard is the UK implementation of EN 1007-6:2007.

The UK participation in its preparation was entrusted to Technical Committee RPI/13, Advanced technical ceramics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2008
