

BSI Standards Publication

Advanced technical ceramics — Ceramic composites — Methods of test for reinforcements

Part 7: Determination of the distribution of tensile strength and of tensile strain to failure of filaments within a multifilament tow at high temperature

National foreword

This British Standard is the UK implementation of EN 1007-7:2010.

The UK participation in its preparation was entrusted to Technical Committee RPI/13, Advanced technical ceramics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
