Micrographic examination of the non-metallic inclusion content of steels using standard pictures

National foreword

This British Standard is the UK implementation of EN 10247:2017. It supersedes BS EN 10247:2007 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee ISE/101/7, Methods of physical and metallographic testing.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
