

Welded circular steel tubes for mechanical and general engineering purposes — Technical delivery conditions —

Part 1: Non-alloy and alloy steel tubes

The European Standard EN 10296-1:2003 has the status of a
British Standard

ICS 77.140.75

National foreword

This British Standard is the official English language version of EN 10296-1:2003. It supersedes BS 6323-7:1982 and BS 6323-2:1982 which will be withdrawn. Together with BS EN 10305-3 and BS EN 10305-5 it superseded BS 6323-5:1982, which will be withdrawn upon publication of the three standards. Together with BS EN 10296-2, BS EN 10297-1, BS EN 10305-1, BS EN 10305-2, BS EN 10305-3, BS EN 10305-4, BS EN 10305-5 and BS EN 10305-6 it will supersede BS 6323-1:1982, which will be withdrawn upon publication of the other standards.

The UK participation in its preparation was entrusted to Technical Committee ISE/8, Steel pipes, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, was published under the authority of the Standards Policy and Strategy Committee on 24 June 2003
