

Metallic materials — Tensile stress relaxation testing —

Part 1: Procedure for testing machines

ICS 77.040.10

National foreword

This British Standard is the UK implementation of EN 10319-1:2003. It supersedes BS 3500-6:1969 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee ISE/101, Test methods for testing, to Subcommittee ISE/101/1, Uniaxial testing.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 27 June 2003
