

Execution of steel structures and aluminium structures

Part 3: Technical requirements for aluminium structures

ICS 77.150.10; 91.080.10

National foreword

This British Standard is the UK implementation of EN 1090-3:2008. It supersedes DD ENV 1090-3:2000 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/525/9, Structural use of aluminium.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 August 2008
