

Plastics piping systems — Polyethylene (PE) valves — Test method for resistance to thermal cycling

The European Standard EN 12119 : 1997 has the status of a
British Standard

ICS 23.060.01

National foreword

This British Standard is the English language version of EN 12119 : 1997 published by the European Committee for Standardization (CEN).

The UK participation in its preparation was entrusted to Technical Committee PRI/61, Plastics piping systems and components, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

This European Standard is also incorporated into BS 2782 *Methods of testing plastics* : Part 11 *Thermoplastics pipes, fittings and valves*, as Method 1133E : 1997, for association with related test methods for plastics materials and plastics piping systems.

It is also for use for the revision or amendment of other national standards as practicable, but it should not be presumed to apply to any existing standard or specification which contains or makes reference to a different test method until that standard/specification has been amended or revised to make reference to this method and adjust any requirements as appropriate.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled 'International Standards Correspondence Index', or by using the 'Find' facility of the BSI Standards Electronic Catalogue.

NOTE. In 4.2, and hence clause 2, reference is made to EN 837-1 : 1994. The 1994 document is prEN 837-1, which remains the relevant public document for reference, pending publication of a first edition of EN 837-1.

Warning note. This British Standard, which is identical with EN 12119 : 1997, does not necessarily detail all the precautions necessary to meet the requirements of the Health and Safety at Work etc. Act 1974. Attention should be paid to any appropriate safety precautions and the method should be operated only by trained personnel.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 4, an inside back cover and a back cover.

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 December 1997
