

Agent specific filling systems for anaesthetic vaporizers —

Part 1: Rectangular keyed filling systems

The European Standard EN 1280-1:1997, with the incorporation of amendment A1:2000 has the status of a British Standard

ICS 11.040.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CH/44, Anaesthetic machines, breathing attachments, medical gas pipeline systems and hose assemblies, upon which the following bodies were represented:

- Association of Anaesthetists of Great Britain and Ireland
- Association of British Health-care Industries
- British Anaesthetic and Respiratory Equipment Manufacturers' Association
- Department of Health (NHS Estates)
- Department of Health (Medical Devices Agency)

The following body was also represented in the drafting of the standard, through a subcommittee/panel:

- Guild of Hospital Pharmacists

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 November 1997
