

BSI Standards Publication

Surface active agents — Preparation of water with known calcium and magnesium hardness

National foreword

This British Standard is the UK implementation of EN 12829:2011. It supersedes BS EN 12829:1998 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CII/34, Methods of test for surface active agents.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
