

Round and sawn timber — Permitted deviations and preferred sizes —

Part 2: Hardwood sawn timber

The European Standard EN 1313-2:1998 has the status of a
British Standard

ICS 79.040

National foreword

This British Standard is the English language version of EN 1313-2:1998, including corrigendum August 2000. It supersedes BS 5450:1977 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee B/543, Round and sawn timber, to Subcommittee B/543/2, Sawn timber, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

National annex NA (informative) contains the recommended reduction of sawn hardwood by processing.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

Informative reference

BS 5756:1997, *Specification for visual strength grading of hardwood*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
