

BSI Standards Publication

**Geosynthetic barriers – Characteristics
required for use in the construction of tunnels
and associated underground structures**

National foreword

This British Standard is the UK implementation of EN 13491:2018. It supersedes BS EN 13491:2013, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/553, Geosynthetics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
