

BSI Standards Publication

Fire classification of construction products and building elements

Part 5: Classification using data from external fire exposure to roofs tests

National foreword

This British Standard is the UK implementation of EN 13501-5:2016. It supersedes BS EN 13501-5:2005+A1:2009 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee FSH/22/-/8, Fire resistance tests for external fire exposure for roofs.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
