

Guidance on the classification and design of plastics piping systems used for renovation

The European Standard EN 13689:2002 has the status of a
British Standard

ICS 23.040.01

National foreword

This British Standard is the official English language version of EN 13689:2002.

The UK participation in its preparation was entrusted by Technical Committee PRI/88, Plastics piping systems, to Subcommittee PRI/88/3, Rehabilitation, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Additional information

EN 13689 makes reference only to those renovation techniques and materials which are the subject of current European Standards. As further European Standards on renovation are developed, EN 13689 will be updated accordingly.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 11 April 2003

Summary of pages
