

Ventilation for non-residential buildings — Performance requirements for ventilation and room-conditioning systems

ICS 91.140.30

National foreword

This British Standard is the UK implementation of EN 13779:2007. It supersedes BS EN 13779:2004 which is withdrawn.

With respect to the Energy Performance of Buildings Directive (EPBD) requirements, attention is drawn to the text of the fifth paragraph of the EN foreword. This recognizes at the present time that, if there is a conflict, existing national regulations take precedence over any requirements set out in this standard.

The UK participation in its preparation was entrusted to Technical Committee RHE/2, Ventilation for buildings, heating and hot water services.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 July 2008
