

Assessment of in-situ compressive strength in structures and precast concrete components

The European Standard EN 13791:2007 has the status of a
British Standard

ICS 91.080.40

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 13791:2007. It partially supersedes BS 6089:1981 which will be withdrawn on publication of complementary guidance (currently in preparation).

The UK participation in its preparation was entrusted by Technical Committee B/517, Concrete, to Subcommittee B/517/1, Concrete production and testing.

A list of organizations represented on B/517/1 can be obtained on request to its secretary.

A National Annex NA (informative) is included, which provides additional guidance for use in the UK.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 28 February 2007
