

BSI Standards Publication

Assessment of in-situ compressive strength in structures and precast concrete components

National foreword

This British Standard is the UK implementation of EN 13791:2019. It supersedes BS EN 13791:2007 and BS 6089:2010, which are withdrawn.

The background to EN 13791:2019, as well as further guidance and worked examples, is given in CEN/TR 17086 (publication anticipated in 2020).

All the relevant content of BS 6089:2010 is now covered by BS EN 13791:2019, including its [national annex](#); PD CEN/TR 17086 (publication anticipated in 2020); and BS EN 12504-1:2019, including its national annex.

This British Standard should be used in conjunction with BS EN 12504-1:2019 and its national annex.

The UK participation in its preparation was entrusted to Technical Committee B/517/1, Concrete production and testing.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
