

BSI Standards Publication

Liquid petroleum products — Separation and characterisation of fatty acid methyl esters (FAME) from middle distillate fuels — Liquid chromatography (LC)/gas chromatography (GC) method

National foreword

This British Standard is the UK implementation of EN 14331:2025. It supersedes BS EN 14331:2004, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/2, Liquid Fuels.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
