

Design and manufacture of site built, vertical, cylindrical, flat-bottomed steel tanks for the storage of refrigerated, liquefied gases with operating temperatures between 0 °C and –165 °C —

Part 3: Concrete components

The European Standard EN 14620-3:2006 has the status of a British Standard

ICS 23.020.10

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 14620-3:2006. This standard, together with BS EN 14620-4:2006, supersedes BS 7777-3:1993 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PVE/15, Storage tanks for the petroleum industry.

A list of organizations represented on PVE/15 can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 29 December 2006
