Petroleum products — Determination of boiling range distribution by gas chromatography method

Part 2: Heavy distillates and residual fuels

National foreword

This British Standard is the UK implementation of EN 15199-2:2020. It supersedes BS EN 15199-2:2006, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/13, Petroleum Testing and Terminology.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
