

Heating systems in buildings — Method for calculation of system energy requirements and system efficiencies

**Part 4-7: Space heating generation
systems, biomass combustion systems**

ICS 91.140.10

National foreword

This British Standard is the UK implementation of EN 15316-4-7:2008.

The UK participation in its preparation was entrusted to Technical Committee RHE/24, Central heating installations.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2009
