

Railway applications — Passenger alarm subsystem

Part 1: General requirements and passenger interface for the passenger emergency brake system

ICS 13.320; 45.060.01

National foreword

This British Standard is the UK implementation of EN 15327-1:2008.

The UK participation in its preparation was entrusted to Technical Committee RAE/4, Braking.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 November 2008
