

Services of real estate agents — Requirements for the provision of services of real estate agents

ICS 03.080.30

National foreword

This British Standard is the UK implementation of EN 15733:2009.

This document represents a first European consensus in specifying requirements and recommendations for the provision of services of real estate agents. Due to the number of different approaches to legislation by each European country, this document aims to establish a minimum quality benchmark for the provision of services for real estate agents in Europe. It is expected that it will be mainly used for cross border transactions.

Existing UK legislation is referred to in Annex A.

The UK participation in its preparation was entrusted to Technical Committee SVS/7/1, Real estate agency services.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 April 2010
